CORAM : Hon'ble Mr. Justice Rajesh Bindal

****

This appeal arises out of an award of the Motor Accident Claims Tribunal (Fast Track Court), Bhiwani, where in an accident, a young man died leaving behind his wife and two minor children. The Tribunal awarded a sum of Rs. 2,98,000/-. A perusal of the award shows that findings on all the issues namely the factum of accident and as a result thereof death of the bread earner of the claimants family were recorded against the appellant. The deceased was proved to be having a valid driving licence. It is not a case where any term of the policy was violated as the appellant had even failed to exhibit the policy on record. The income of the deceased was also assessed moderately keeping in view that he was engaged in the agriculture work and even his dependency and multiplier are also reasonable.

Accordingly, I do not find any merit in the present appeal.

Dismissed.
